SUBJECT: Subcommittee Participation in [REDACTED] Electronics Conference

1. Following the 1959 Intelligence Conference on Soviet Electronics, this Subcommittee devoted several discussion periods to the question of ETSC participation in future Conferences. The consensus of the Subcommittee was that considerable importance should be attached to the inclusion of economic considerations in future Conferences and that the EIC/ETSC should continue to be represented.

2. A statement of Subcommittee interest in future Conferences was drafted and forwarded to the Chairman of the Electronics Subcommittee of the Scientific Intelligence Committee. A copy of this memorandum is attached.

25X1X7

3. As presently scheduled, the next [REDACTED] Electronics Conference will be held during the summer or early fall of calendar year 1960. Agenda planning will begin during the next few months. The ETSC would welcome any comments or guidance relative to this conference which the EIC wishes to provide.
